

AireShare™ Transfer Fans

Make Hot or Cold Rooms More Comfortable
Extend Comfort from Ductless
Cooling and Heating

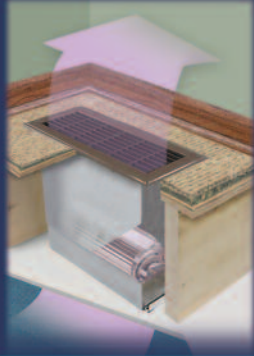

Perfect for homes with:

- Split System, PTAC & Window A/C.
- Space Heaters, Stoves & Fireplaces.
- Equalize Temperatures Between Rooms/Levels.

Room to Room

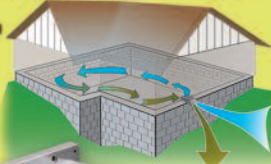

Level to Level

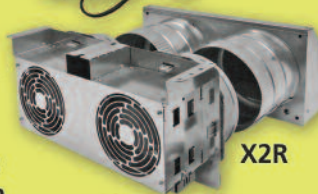

XCHANGER™

Reversible Basement Ventilation Fans

Improve Indoor
Air Quality.
Cure Damp,
Musty
Basements

X2D

X2R

- Save over \$100/yr in electricity costs compared to a dehumidifier.
- 2 reversible 90 CFM fans provide air supply, exhaust or balanced exchange.
- Magnetic damper stops eliminate air infiltration.
- X2D includes dehumidistat for automatic operation.

Also great for garages,
cabins, storage areas &
workshops

Chimney Stack Assist Kit

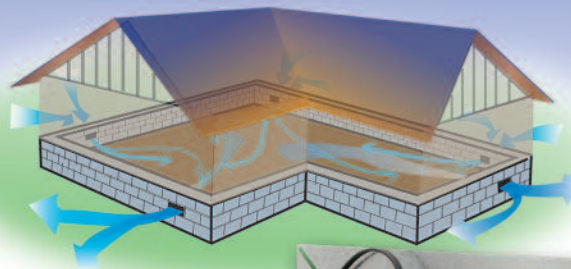

assures proper
draft in oversized
chimneys on
direct vent
furnace
upgrades

- For all gas chimney vented residential millivolt water heaters with 3" & 4" vents.
- Protects against condensation callbacks and flue gas spillage liabilities.
- No need for two-person chimney liner crews.
- Eliminates roof fall liabilities.

UnderAire™ Crawl Space Ventilators

- Ventilates excess moisture to reduce mold, mildew and rot.
- Increases air circulation to fight condensation.
- Reduces radon, off-gassing and odor migration into living areas.
- 110 and 220 CFM models, built-in dehumidistat.

PN 8500850 Rev I 6/19

Save Energy with Compact, High Velocity D-STRAT™ Fans

Reduce ceiling to floor
temp differentials by
at least 50%. Reduce
heating costs while
increasing floor level
comfort.

Perfect for use in:
Gyms, Warehouses,
Factories, Automotive
Garages, Grocery, Big Box
Stores, Wet Entryway Floors

Compare These Features:

- Compact design vs ceiling fans for installation flexibility!
- Swivel mount for directed air delivery
- Energy efficient 30 watt, 540 CFM fan costs under 1/2 cents/hr. to operate
- Ultra-quiet, 1.5 sone operation
- White & black models available

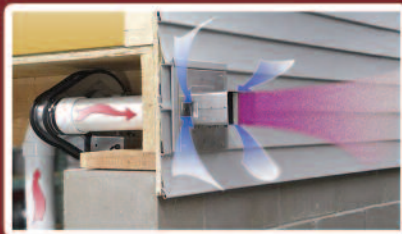

Radon Products

The EPA estimates that over 20,000 deaths each year are radon related making it the second leading cause of lung cancer deaths. The most common solution to reduce radon exposure is through fan-powered mitigation systems.

RADON VAC™ Side Wall Radon Mitigation System The Effective and Low Cost Solution for Existing Homes

- Hood dilutes and propels exhaust away from home.
- Eliminates intrusive interior or ugly exterior pipe runs.
- Sealed blower housing prevents leakage.
- Quiet, efficient operation—uses only 50 watts.
- 10-year, no maintenance warranty.

16 Watt 4" Booster Fan

Inexpensive fan connects directly with 4" Schedule 40 PVC to improve the performance of passive (no fan) radon exhaust stacks. Installs in 5 minutes. 90 CFM and only 16 watts.

Fan Failure Alarm

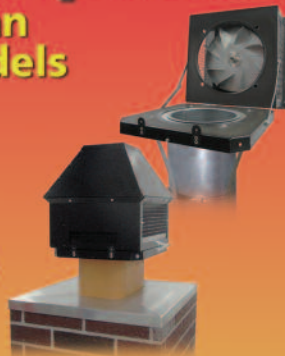

Alerts homeowners of a radon fan failure or ice induced pipe blockage. Alarm sounds when loss of exhaust flow is detected.

Chimney Top Fans

30% cheaper than competitive models

- Includes speed control and non-loading stainless steel impeller.
- Patented cooling system. Only fan rated to 1000°F.
- Mounts on metal or tile flue.
- For gas, oil & solid fuel.
- Also great for dryers, ovens & general exhaust.

In-Line Stove Fan

- Economical solution for stoves with flue outlet diameters from 5" to 8". Includes speed control.
- Helps fires start quickly and eliminates smoke puff back when refueling.
- Mounts indoors on vertical or horizontal stove pipe.

Dryer Duct Booster®

Reduce drying & lint build-up. Save energy.

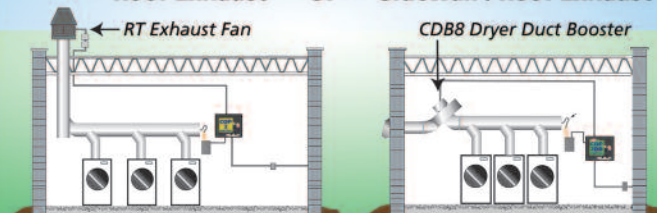

- Cut drying times up to 60%
- 5-year warranty / no-clog guarantee

Reduce Lint Build-Up. Slash Duct Cleaning Costs!

Commercial Dryer Duct Booster® fans reduce drying time, save energy!!

Roof Exhaust — or — SideWall / Roof Exhaust

Duct Booster® Fans

Best value for boosting air flow in ducts or for powered air intakes and exhausts

- Models for round or rectangular ducts.
- Models for rigid and flex ducts — 4" to 14."
- Speed control & automatic operation options.
- Standard and high pressure fans available.
- Quiet, smooth operation.

Register Duct Boosters®

The ultra-quiet Register Booster fans are ideal when the duct run serving the room is not accessible to install an In-Line Duct Booster® fan. Plugs into a standard 120 VAC outlet.

Models to fit 4"x10", 6"x10", 4"x12" and 6"x12" registers
